DSI TRACKER

Media Management System for IBM i

Unlock your backup's potential

Having trouble locating data when it counts? Struggling with the complexity of BRMS?

Dynamic Solutions International is committed to improving the way that our customers do business. Every product is engineered with making a job easier, more efficient, and more secure. As experts with nearly 45 years' experience in the data storage industry streamlining systems has become a priority.

DSI Tracker is an entry-level media management system designed for the DSI Virtual Tape library. DSI Tracker is ideal for customers looking to integrate a simple media management system or those who feel their current media management system is more complex than needed.

With DSI Tracker you can manage your data when and how you would like seamlessly. No more manual management of your data while simplifying your data restore.

You can make your data searchable by CONTENT! Find media for the one object you need quickly based on variables like Library, Object, Member, DLO and IFS content. You can even manage and restore data from both physical and virtual tape.

Call today to find out how DSI Tracker can help you take your data storage to the next level!

Visit us at DynamicSolutions.com or call +1 303.754.2000 to speak directly with a storage systems specialist.

DSI Tracker MMS: The Nitty Gritty

- Mini Media Manager
- Functionality with one or more libraries (physical or virtual)
- Duplication of tapes
- Comprehensive tracking of tape volume movement and location
- Ability to define retention policies that block accidental overwrite
- Management reporting: tape inventory, retention and expiration dates
- Easy to implement
- Object-level search capability
- Seamless integration to existing IBM backups (software/manual)
- Can restore data in a granular fashion, rather than all/nothing model
- Ideal for operator who sees BRMS as too complex for their needs

DSI Tracker

IS IDEAL FOR CUSTOMERS LOOKING TO INTEGRATE A SIMPLE MEDIA MANAGEMENT SYSTEM OR THOSE WHO FEEL THEIR CURRENT MEDIA MANAGEMENT SYSTEM IS MORE COMPLEX THAN NEEDED.
